THE GREAT CELEBRATION OF MANUFACTURE

On June 20, in a glorious ceremony that organized by the Hellenic Academy of Marketing at Zappeion mansion, for the competition "Made in Greece 2022", which is the biggest celebration of Greek production, Interplast was distinguished with three significant awards.

The two awards concern two characteristics product categories that technicians loved and over time support. Two categories that constitute the front of the company within and abroad.

Aqua Plus (pipes and fittings for water supply - heating - chilled water) was awarded with gold medal in his category "branded industrial product" and Como Pex (pipes for heating and water supply) with a silver medal in category of "export excellence".

In the same competition, the new product that offers energy solutions in heating and cooling, through the roof, the EcoTop, was awarded a bronze medal in category of "innovative industrial product".

These awards, on the one hand, are recompense of all Interplast employees efforts, and on the other hand give us the power and the willing to develop new products which will define the developments in Greek and international market, as well as will increase Interplast's shares in global firmament.
